NEET MODEL QUESTIONS

CHAPTER 4 - REPRODUCTIVE HEALTH

1. In the women fertility ceases at about 45 to 55 years. This arrest of reproductive capacity is known as
A) Gestation B) Menopause C) Menstruation D) Puberty
Ans: B
2. The correct sequence of reproductive events in humans are:
A) gametogenesis, implantation, fertilization, insemination, gestation, parturition.
B) gametogenesis, insemination, fertilisation, implantation, gestation, parturition.
C) gametogenesis, insemination, implantation, fertilization, gestation, parturition.
D) gametogenesis, fertilization, insemination, implantation, gestation, parturition.
Ans: B
3. The tubuli recti of seminiferous tubules in each testes open into a network called
A) vasa efferentia B) vas deferens C) rete testis D) ductus epididymis
Ans: C
4. Lippes loop is a
A) traditional contraceptive method B) surgical contraceptive
C) contraceptive method for male D) no medicated IUDs
Ans: D
5. The contraceptive method in which the couples avoid or abstain from coitus day 10/17 of menstrual cycle is called
A) Allactational amenorrhoea B) coitus interruptus
C) periodic abstinence D) withdrawal method
Ans: C

6. Releasing of seminal fluid into the female genital tract is called
A) ejaculation B)implantation C)copulation **D)insemination**
Ans: D
7. Sterilisation procedure in the male is called
A)vasectomy B)tubectomy C)salpingectomy D)hysterectomy
Ans: A
8. In vasectomy which part is removed or tied up
A) fallopian tube **B)vas deferens** C)vas efferentia D)ejaculatory duct
Ans: B
9. Amniocentesis is a prenatal technique used to
A) correct the genetic features of the foetus
B)reverse the sex of the foetus
C)estimate the essential aminoacids in the body
D)detect chromosomal abnormalities in the child.
Ans: D
10. Which of the following is a hormone releasing IUDs
A) Allipier loop B)multiload 375 C)LNG 7 **D)LNG 20**
Ans: D
11. Find out the correct statement about IUDs
i) IUDs increases phagocytosis of sperms.
ii) Cu ions suppress sperm motility and fertilizing capacity of sperms.
iii) Hormone releasing IUDs make the uterus unsuitable for implantation.
iv) Progestasert is a hormone releasing IUDs
A) only 1 & 2 is correct B) only 3 & 4 is correct
C) 2 & 3 are false **D) all are correct**
Ans: D
12. Expand MTP
A) Mechanical Transfer of Pollen B) Medical Termination Parturition
C) Medical Termination of Pregnancy D) Maternally Transmitted Pathogen
Ans: C

13. The function of Cu Tis to prevent

- A) Ovulation
B) Maturation of ovum
C) Fertilization
D) Implantation

Ans: C

14. Test tube baby means a baby born when

- A) It is developed in a test tube.
B) It is developed through tissue culture method.
C) The ovum is fertilized externally and thereafter implanted in uterus.
D) It develops from a non-fertilized egg.

Ans: C

15. Contraceptive pills does not

- A) Inhibit ovulation
B) Alter the quality of cervical mucus.
C) Engulf the sperm
D) Prevents the entry of sperm.

Ans: C

16. A contraceptive pill contains

- A) Progesterone & estrogen
B) Spermicidal salts
C) Chemicals that cause automatic abortion
D) Chemicals that prevent fertilization.

Ans: A

17. CDRI is located at

- A) Mumbai
B) Bangalore
C) Lucknow
D) Delhi

Ans: C

18. Termination is safe if done within

- A) 2nd trimester of pregnancy
B) 12 weeks of pregnancy
C) 4 months
D) All

Ans: B

19. Transfer of ovum collected from a donor into the fallopian tube of another female is known as

- A) ZIFT
B) IUT
C) IVF
D) GIFT

Ans: C

20. Sperm directly injected into the ovum is
A) IUI B) GIFT C) ICSI D) IUT
Ans: C
21. Which of the following is a birth control method
A) GIFT B) ET C) ICSI D) IUCD
Ans: D
22. The presence of which of the following in the urine is tested for pregnancy diagnosis
A) GnRH B) Oxytocin C) HCG D) Prolactin
Ans: C
23. According to WHO reproductive health means total well-being of the following aspects of
A) Physical B) Emotional C) Behavioural D) ALL
Ans: D
24. The family planning programmes were initiated in the year
A) 1951 B) 1956 C) 1961 D) 1966
Ans: A
25. Introduction of sex education in schools was to
A) prevent child marriage
B) to be friendly invariable of sex
C) to prevent misconceptions about sex related aspects
D) to keep them healthy
Ans: C
